#0911

Rescue 911

SPOT, STAIN & ODOR REMOVER

DESCRIPTION:

Bio-enzymatic spot, stain & odor remover effective on: blood, urine, feces, cola, iodine, coffee, food stuffs, wine, vomit, smoke, mold and more. Non-acid, non-alkaline, non-polluting. The digestive process of bacteria and enzymes allow this product to eliminate stains and odors. The pleasant fragrance first neutralizes the malodor, then the Bio-Enzymatic action of the specially selected microorganisms digest and destroy the sources. Can be used on most surfaces or materials not harmed or stained by water. Milky white in color with a pH of 5-6. Great environmental choice!

WHAT DOES IT DO?

RESCUE can be used on carpets and fabrics for removal of stains and odors. Also for carpet pre-spot and cleaning, laundry pre-soak and pre-spot, furniture and car upholstery spot and odor cleaner.

WHY IS IT USED?

RESCUE contains a synergized blend of selectively adapted Bacillus organisms which had been chosen to emulsify organic deposits and stains such as grease, fats, proteins, starch, sugar and cellulose. RESCUE is used to remove spots, stains, and eliminates odors in textile materials. RESCUE is safe to use in any environment: hospitals, nursing homes, clinics, funeral homes, schools, correction facilities, restaurants, kennels, business offices, apartments, etc. Non-pathogenic and 100% ecologically safe.

HOW IS IT USED?

Fabric or textiles: Use RESCUE to spot clean or pre-soak soiled areas. Mix 1 pint to 1 gallon water, apply with sprayer to soak thoroughly. Keep area moist until spot or odor has been eliminated. Repeat application if necessary.

Carpets: RESCUE can be used with all types of carpet cleaning equipment. Use ½ to 1 pint RESCUE to each gallon of mixed cleaning solution to eliminate odors, and if necessary, lift carpet to spray pad. Vacuum carpet after surface has dried.

PACKAGING:

RESCUE is available in quart containers.
