

#0230

D-Stain

POWERFUL STAIN-REMOVER FORMULA

DESCRIPTION:

Highly active chlorinated bleach that provides fast bleaching action and removes difficult stains. Restores whiteness to fabrics.

WHAT DOES IT DO?

Whitens, sanitizes, and removes stains on all white fabrics.

WHY IS IT USED?

Highly effective concentrated whitening agent, specifically formulated for commercial and institutional laundry use. Will not cause pinholes in the wash-wheel. Bleaching is uniform and bleach waste by loss to the atmosphere is minimized.

HOW IS IT USED?

When bleaching, feed #230 D-STAIN directly into machine.

- **Light to Medium Soil** – 1 to 2 oz. per 50# load.
- **Heavy Soil** – 3 to 4 oz. per 50# load.

NOTES: For maximum results alone “bleach” cycle is preferable. A pH range of 10.2 to 11 produces best results. Do not use on nylon, wool or silk.

PACKAGING:

D-STAIN is available in 5 gallon pails or 15 gallon containers.
