Blast Off

OVEN & GRILL CLEANER

DESCRIPTION:

BLAST OFF is a powerful, fast-acting liquid oven and grill cleaner containing Potassium Hydroxide, penetrants and surfactants.

WHAT DOES IT DO?

BLAST OFF removes the toughest burned on food, grease, and soil from ovens, grills, deep fat fryers, stove tops, burners, griddles, filters, ventilating hoods, and other stainless steel, iron, and porcelain surfaces. DO NOT USE ON ALUMINUM.

WHY IS IT USED?

To provide safe and sanitary conditions for food service equipment. BLAST OFF makes the removal of grease and carbon deposits easy.

HOW IS IT USED?

For quick removal of grease and carbonized grease from ovens, stove hoods, greasy vents, grills and broilers:

1. Wear safety glasses and chemical resistant gloves; no respiratory protection is required with adequate ventilation
2. Spray on surface to be cleaned
3. Allow 10 to 15 minutes for BLAST OFF to penetrate
4. Wipe off with a damp sponge or paper towel

For heavily encrusted areas:

5. Repeat using a steel wool pad

NOTE: BLAST OFF can be used on warm or cold surfaces but should NOT be used on hot surfaces as the product may splatter.

PACKAGING:

BLAST OFF is available in 1 Quart, 1 Gallon, and 55 Gallon Containers.
