

#0304-1

Combi Rinse

PREMIUM COMBINATION OVEN RINSE & NEUTRALIZER

DESCRIPTION:

A unique concentrated rinse additive for use through the integral cleaning system on combination ovens.

WHY IS IT USED?

Dosed automatically following the oven's cleaning program, COMBI RINSE neutralizes any alkaline detergent residues and ensures an effective rinse process. Will reduce water spot marking and help to control water scale if used regularly. Suitable for use in both atmospheric and non-atmospheric (pressurized) ovens.

DIRECTIONS:

- Must only be used via the integrated dosing system on combination ovens.
- Concentration can be adjusted via the oven control panel to achieve a suitable level of rinse effectiveness.
- Typical dilution rate is between 1 to 2 ounces per gallon of rinse solution.
- Always ensure that chemical containers are located in a safe location and that care is taken when changing containers.
- Only use in combination ovens with an appropriate backflow preventer.

TECHNICAL DATA:

Color Clear, Teal
Scent N/A
pH (1% solution) 2.3 – 3.3

Phosphated No
Viscosity Low
Density 8.7 lbs./gallon

Read Product Label & SDS Sheet Prior to Use.
